

A snapshot of clinical management of **Glanzmann Thrombasthenia** in Europe

An initiative from the EAHAD Glanzmann's Thrombasthenia Working Group to better understand Glanzmann's Thrombasthenia (GT) clinical practice in Europe

The GTWG invites you to complete a short survey, to share your experience of management of Glanzmann Thrombasthenia.

Your responses will help generate a valuable snapshot of how this rare bleeding disorder is currently managed in clinical practice.

Help us better understand the management of GT in Europe, by taking the survey linked on the right hand side of this flyer.

A survey on behalf of the EAHAD Glanzmann's Thrombasthenia Working Group.

For more information, please contact: AHGTsurvey@ashfieldmedcomms.com.

This initiative is funded by an educational grant from Novo Nordisk.

Help us better understand the management of GT in Europe, by taking the 20-min survey now:

www.surveymonkey.com/r/GTWG-Survey

Or send to yourself (or a colleague) for later:

Survey closes on 20th March 2023

Thank you from the EAHAD Glanzmann's Thrombasthenia Working Group
